- A **result-oriented professional**; with experience of **over 3 years** in **Android Programming & Development and Project Maintenance & Enhancement** while working on Research & Development, Android application performance analysis & tuning
- Currently associated with **Raptor Design, Bangalore as Team Leader**
- Experience of creating applications for mobile devices using the Android platform by designing new features, collaborating with cross-functional teams, testing code, fixing bugs, and improving application efficiency
- Insightful knowledge of working on software such as **Flutter, Kotlin, Android Studio IDE, Java, XML and Android SDK** for android applications development
- Knowledge of working with latest Android OS, Android Oreo API (Android 9.0)
- Managed technical documentation, design, development and troubleshooting for Mobile Application Development

CORE COMPETENCIES

Android Development | Application Maintenance | Project Execution | Debugging

ORGANIZATIONAL EXPERIENCE

Raptor Design., as a Software Engineer

Sep'18 – Present

Role:

- Holding complete responsibilities of planning, development, testing and maintenance of 3 modules.
- Designed the features for the database interface relevant for the mobile application from the existing system
- Worked with the UI Team to design the appropriate icon and display for the screens

Highlight:

- In spite of the tight schedule and limited resources able to manage all the 3 modules efficiently

Xiphias Software Technologies Pvt. Ltd., Bangalore as Team Leader

Jan'17-Jan'18

Role:

- Managed a team of 3 developers and administered development of all application components and UI resources
- Led complete design, development, troubleshooting and debugging of the software
- Provided statistical and performance feedback and coaching, and administered performance reviews for skill improvement
- Helped the team to conceptualize, design, develop and deploy preloaded applications for android based mobile phones
- Designed the features for the database interface relevant for the mobile application from the existing system
- Worked with the UI Team to design the appropriate icon and display for the screens

Highlights:

- Successfully deployed the app on the Android Marketplace and supported the app for different releases of Android OS
- Effectively designed, built, deployed, debugged & maintained Android applications for Google Play
- Tested the application on multiple android targets and debugged the issues that were found

Brillmindz Technologies Pvt. Ltd., Bangalore as Jr. Android Developer

Jun'15 – Aug'16

Role:

- Participated in complete Software Development Life Cycle (SDLC) for proper analysis, development, testing, deployment and enhancement of the code
- Followed up by testing (user interface, errors with all possible inputs, debugging, publishing) apps after project completion
- Analyzed user interface and consulted with client
- Fixed bugs with code, design patterns and miscellaneous occurrences during projects

Highlight:

- Successfully completed 3 projects which included 5 applications, within a period of 13 months

TECHNICAL SKILLS

- Developing applications for the Android Operating System using Flutter, Kotlin, Android Studio IDE, Java, XML and Android SDK
- Common Android API (Location, Camera, Notifications, Map, SMS) and Third-Party API of Android like Retrofit, Picasso, Glide, FCM)

- Using Latest Android Components like Bottom Sheet, Collapsing Toolbar Layout, Theming applications
- Google Architecture components, RxJava, RxAndroid, MVP, Restful APIS, Dagger 2, JSON, Android Services, Google Maps, 3rd party libraries, SQLite Database, Content Providers, Notifications, Activities, Intents, Material design concepts, with experience in publishing app in Google Play Store

PROJECTS

Title: StackCare

Platforms Used: Android Studio, MVP, Dagger 2

Description: It is an occupancy sensing in addition to the comfort and safety of automated circadian lighting and high-resolution resident activity monitoring and analytics

Title: Retro Music Player

Platforms Used: Android Studio, KOTLIN, Java, RxJava, MVP

Description: It is an android music player with core functionalities with latest material design theme with over 1,300, 000 Downloads from Google Play Store

ACADEMIC DETAILS

2014 B.Tech. (Electronics & Communication) from SDM Institute of Technology, Ujire, Karnataka

2009 12th from Govt. HSS, Pedda Belagondapalli, Tamil Nadu

2007 10th from Govt. HSS, Madagondapalli, Tamil Nadu

PERSONAL DETAILS

Date of Birth: 13th December 1991

Languages Known: English, Hindi, Kannada & Telugu

Address: #320/2, 4th Main Rd, 6th Cross, Venktapura, Bangalore-560034, Karnataka
